

NAME: Prasanna K
ROLL NO: 240701396

ASSIGNMENT 02:

LIBRARY MANAGEMENT SYSTEM - ADVANCED FIELDS USE CASE

Aim

To extend the existing Library Book Issue Request application in Zoho Creator using advanced fields for catalog verification, multiple-book requests, fine calculation, media handling, declarations, and system-generated values.

Procedure

Open the existing Library Book Issue Management application in Zoho Creator, extend the Book Issue Request form with the required advanced fields, configure the supporting Book Catalog and Additional Books Requested sections, verify the field properties and validations, preview the form, and check the generated values and report after submission.

1. Catalog Verification & Reference

The Book Catalog is used as the master reference for book details. The Book Title Lookup connects the issue request to catalog records, while book cover, e-book reference, replacement price and related catalog fields support quick verification of the selected book.

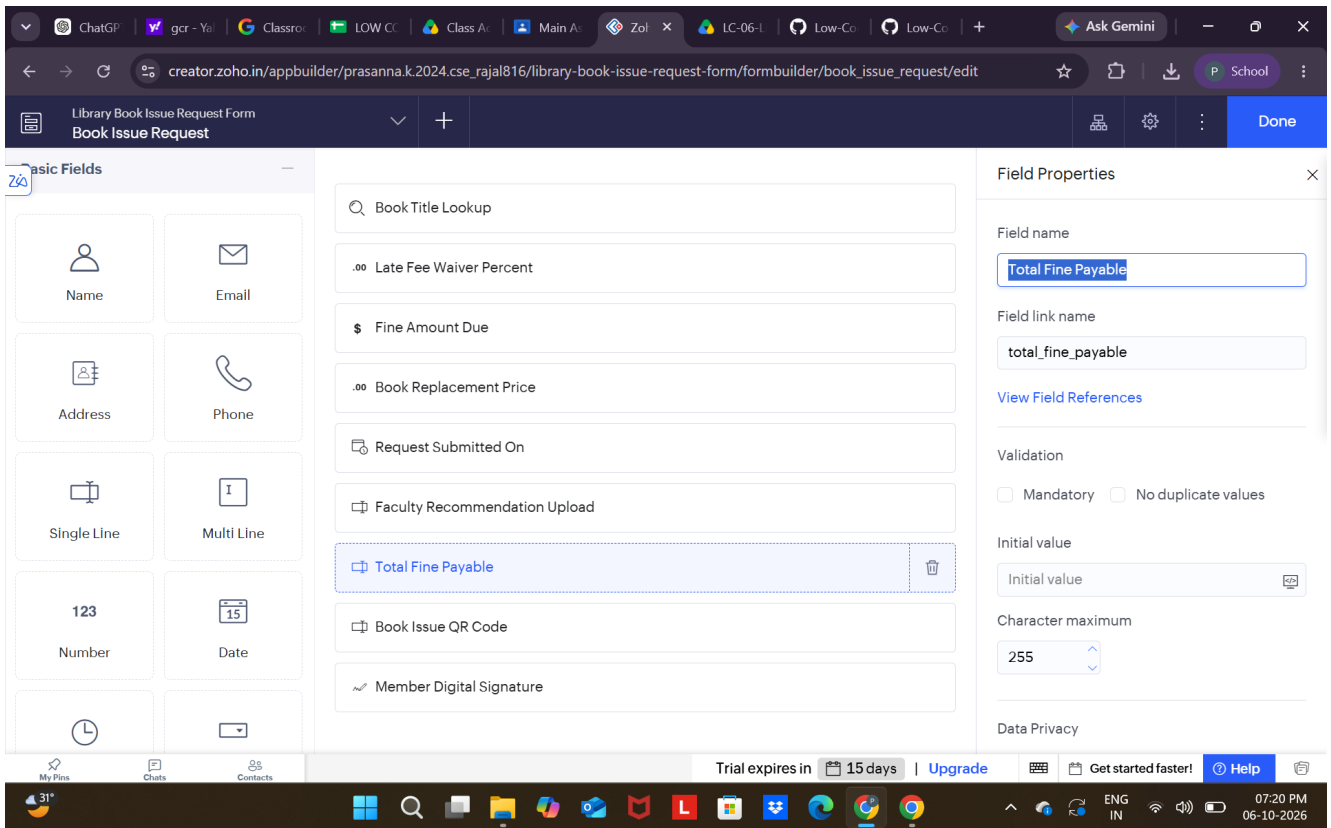

Figure 11: Total Fine Payable field configuration

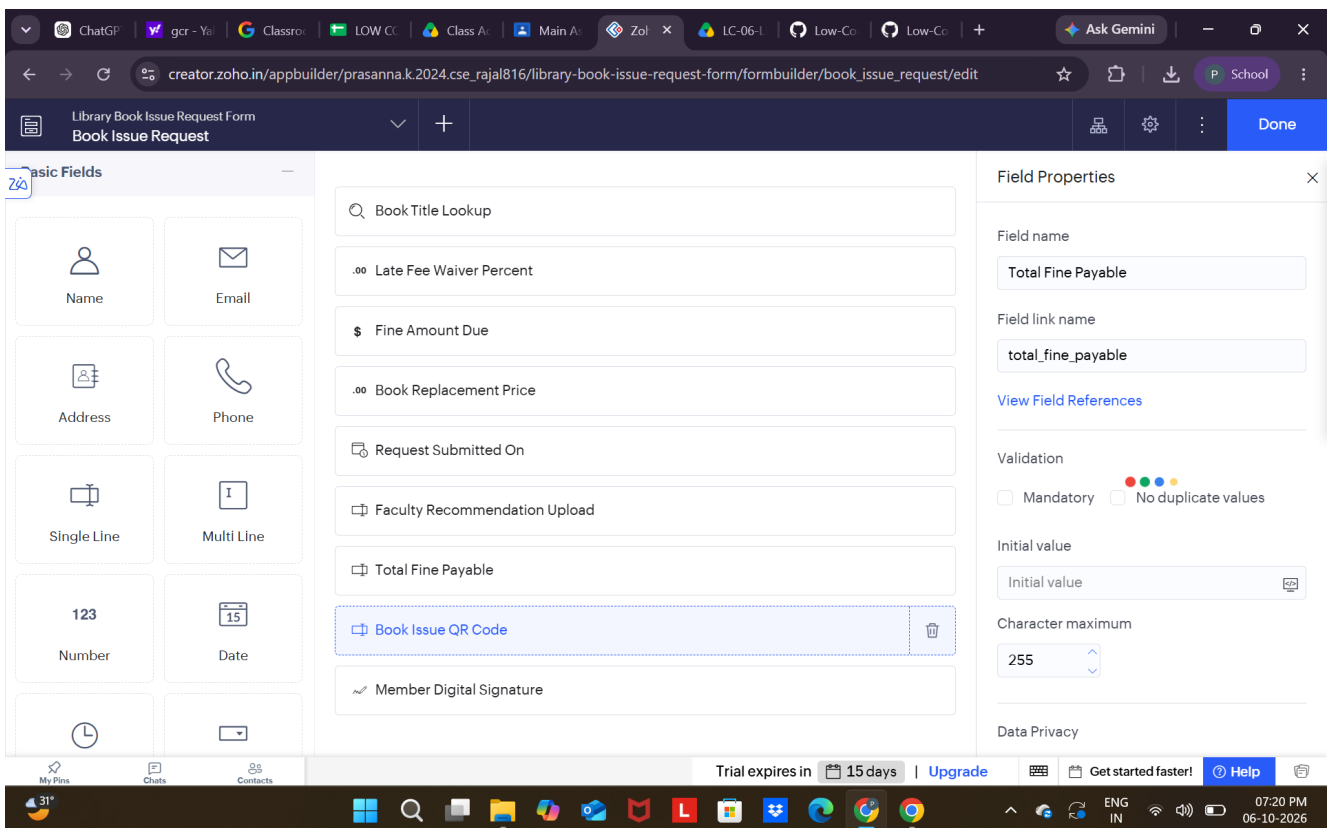

Figure 12: Book Issue QR Code field configuration

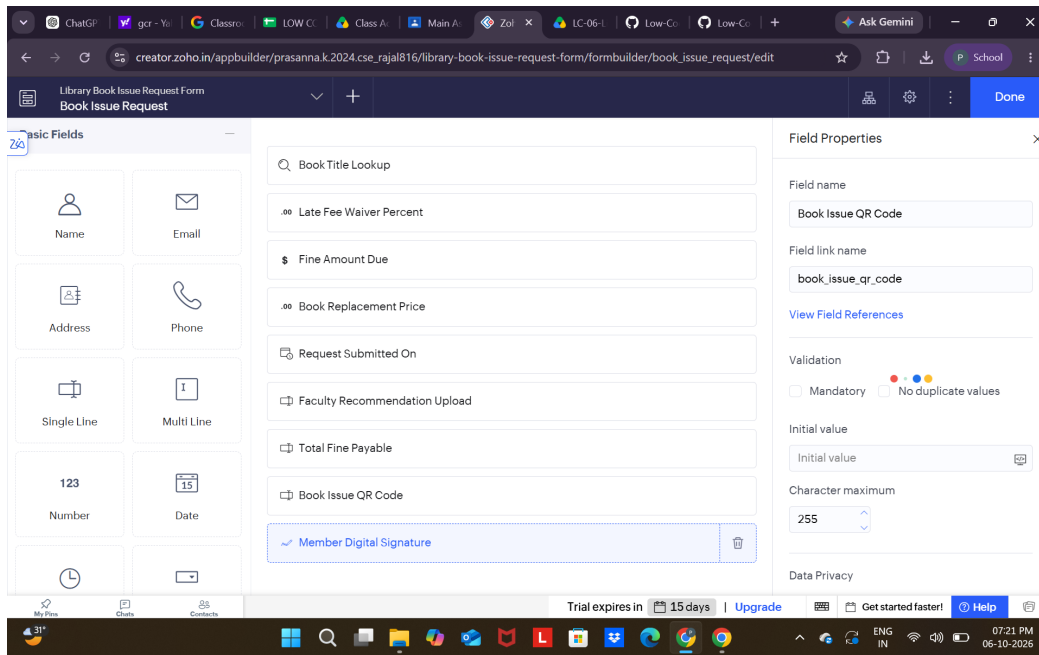

Figure 13: Member Digital Signature field configuration

2. Multi-Book Request & Media Details

The Additional Books Requested SubForm allows more than one book to be included in a single request. Supporting fields are provided for faculty recommendations and optional book review media such as files, audio and video.

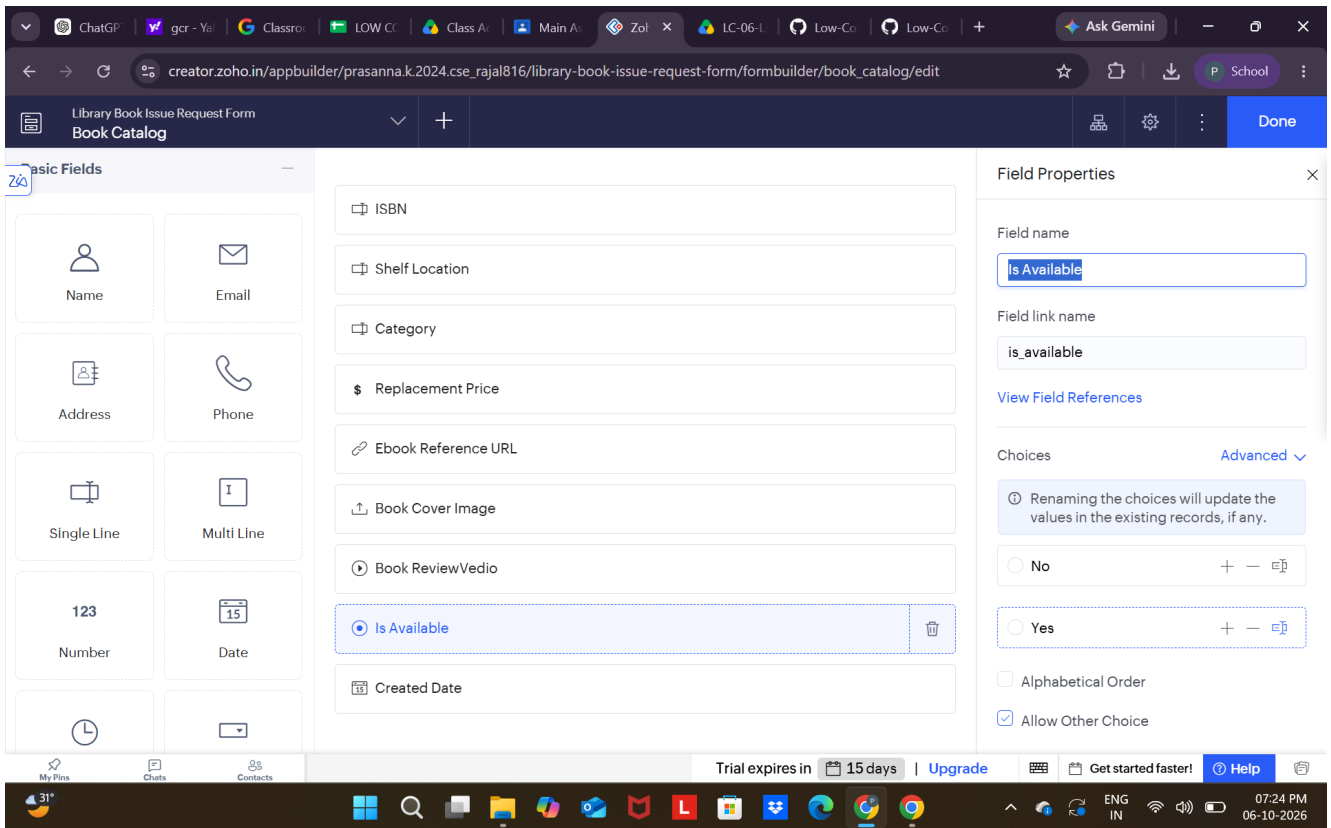

Figure 23: Book Catalog - Availability field configuration

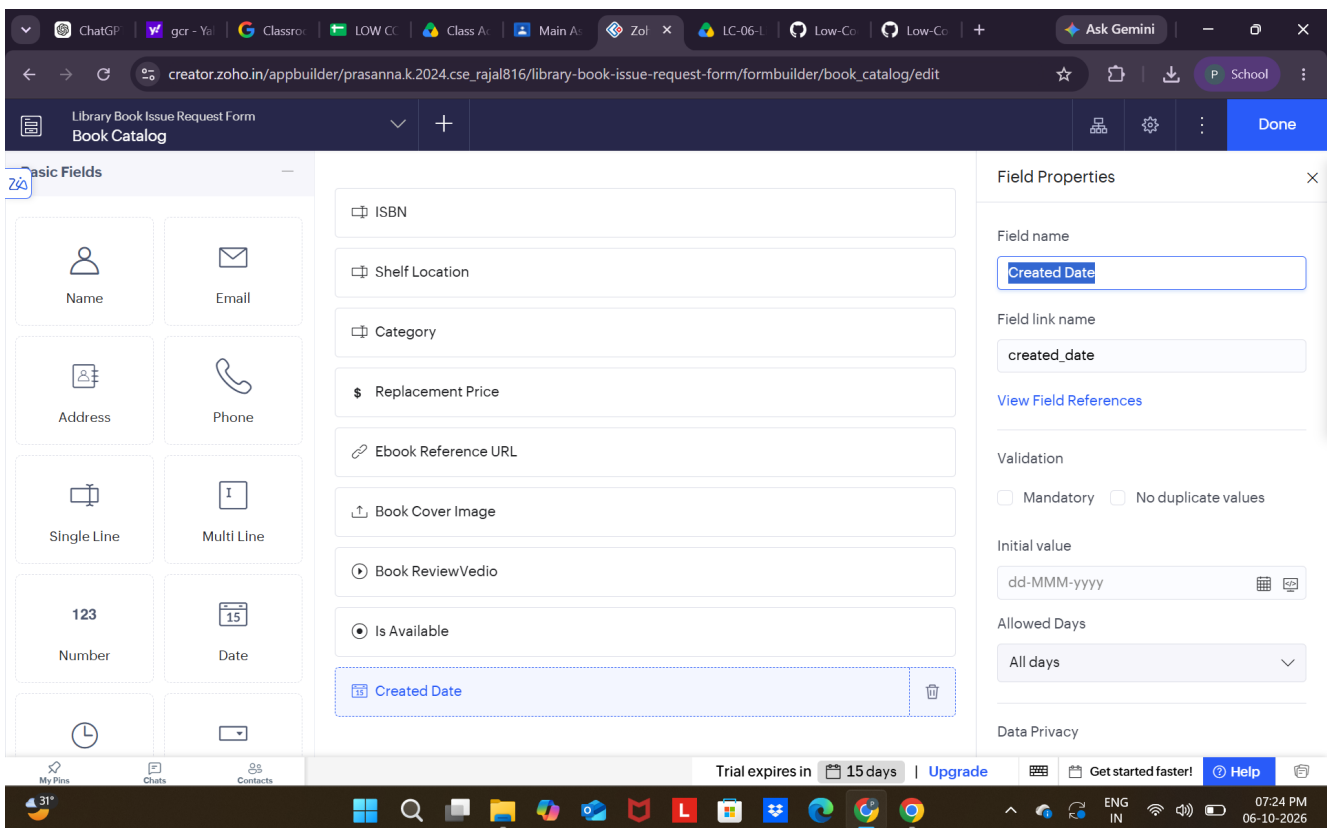

Figure 24: Book Catalog - Created Date field configuration

3. Fine & Delivery Preference

The member can indicate whether home delivery is required. Fine Amount Due and Late Fee Waiver Percent are captured, and Total Fine Payable is calculated automatically from the configured values.

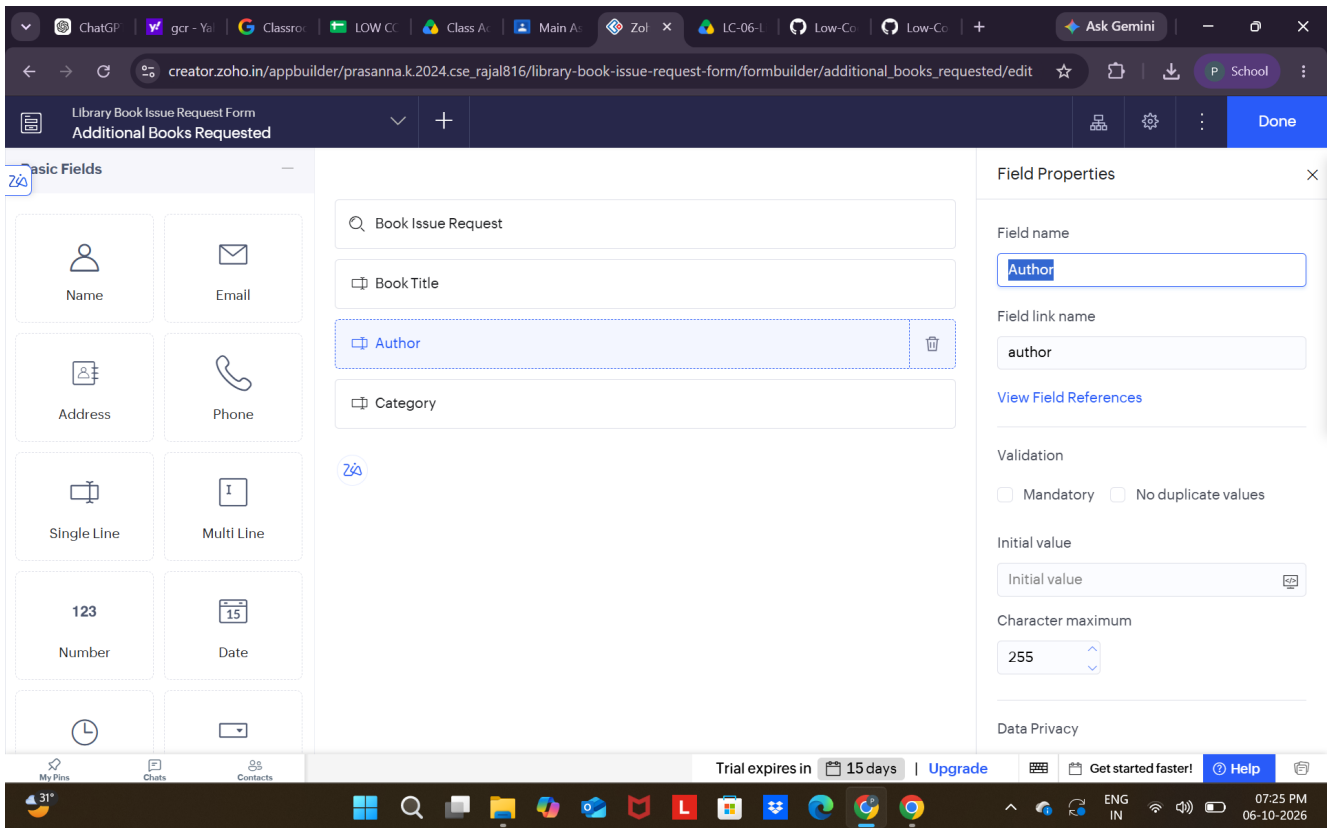

Figure 27: Additional Books Requested - Author field

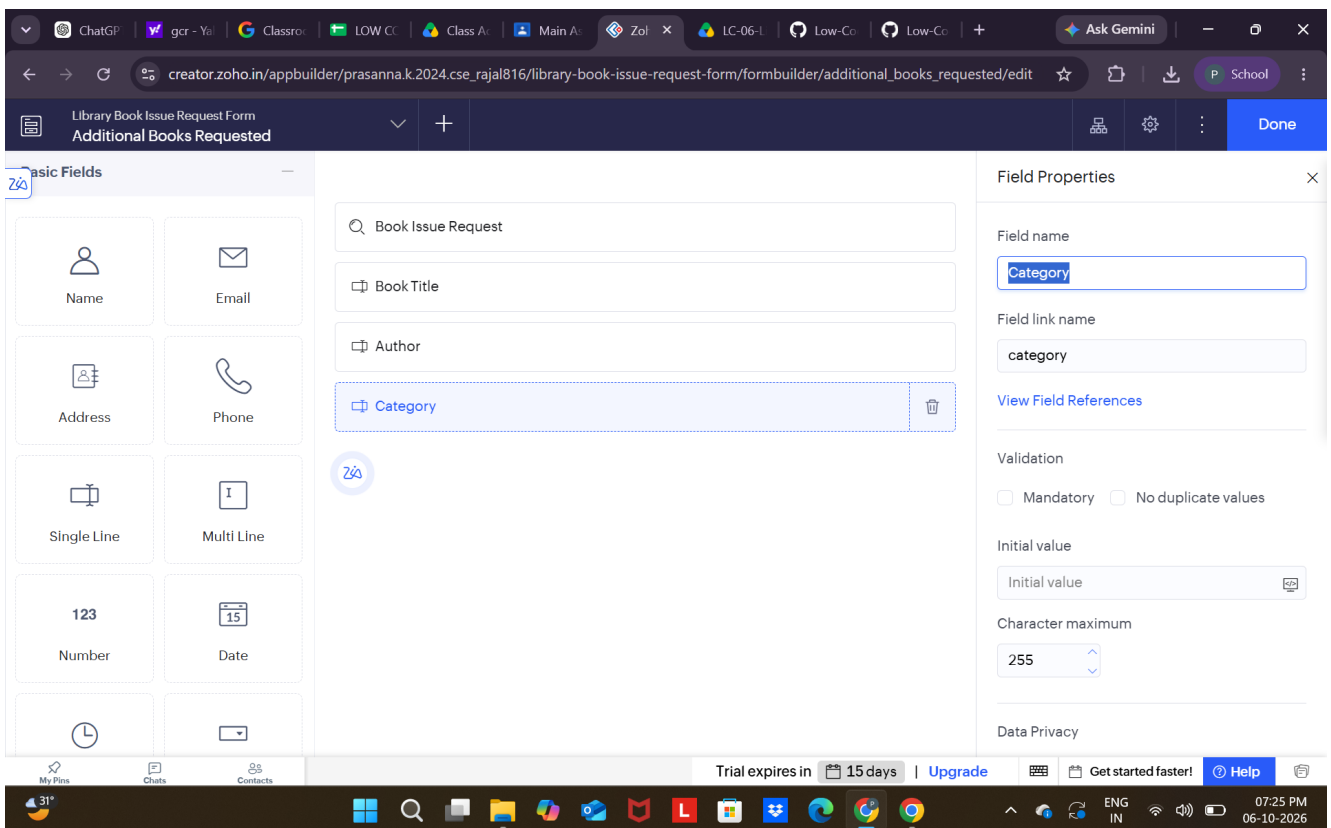

Figure 28: Additional Books Requested - Category field

4. Declaration & System-Generated Value

The form displays library rules and captures the member's digital signature. On submission, the system records the submission date and time, generates a unique Issue Request ID, and creates the corresponding Book Issue QR Code.

The screenshot shows a web browser window displaying the 'Library Book Issue Request Form'. The browser's address bar shows the URL: `creatorapp.zoho.in/prasanna.k.2024.cse_rajal816/library-book-issue-request-form#Form:book_issue_request`. The page has a dark blue header with navigation links: 'Dashboard', 'Book Issue Request' (active), 'Book Catalog', and 'Additional Books Requested'. The main content area is titled 'Library Book Issue Request Form' and contains the following fields:

- Member Name:** A text input field with a placeholder 'First Name'.
- Requires Home Delivery:** Radio buttons for 'No', 'Yes', and 'Other'.
- Library Rules Display:** A rich text editor with formatting options (bold, italic, underline, text color, background color, link, list, indent) and a large text area.

The browser's taskbar at the bottom shows the date and time as 07:29 PM on 06-10-2026.

Figure 29: Book Issue Request form - Member and declaration section

The screenshot shows the same web browser window, but the form is scrolled down to the 'Advanced calculation and date fields' section. The fields in this section are:

- Book Title Lookup:** A dropdown menu with '-Select-' as the current selection.
- Late Fee Waiver Percent:** A text input field followed by a '%' symbol.
- Fine Amount Due:** A text input field with a placeholder '#####.##' followed by a '\$' symbol.
- Book Replacement Price:** A text input field with a placeholder '#####.##'.
- Request Submitted On:** A date and time picker showing 'dd-MMM-yyyy HH:mm:ss'.
- Faculty Recommendation Upload:** A text input field.
- Total Fine Payable:** A text input field.
- Book Issue QR Code:** A text input field.
- Member Digital Signature:** A signature capture area with a 'Draw your signature' prompt and a '[Clear]' button.

The browser's taskbar at the bottom shows the date and time as 07:29 PM on 06-10-2026.

Figure 30: Book Issue Request form - Advanced calculation and date fields

The screenshot shows a web browser window with the URL `creatorapp.zoho.in/prasanna.k.2024.cse_rajal816/library-book-issue-request-form#Form:book_issue_request`. The page title is "Library Book Issue Request Form". The user is logged in as "Prasanna K". The navigation bar includes "Dashboard", "Book Issue Request" (active), "Book Catalog", and "Additional Books Requested". The form contains the following fields:

- Book Replacement Price:** A text input field with a placeholder "#####.##".
- Request Submitted On:** A date and time picker showing "dd-MMM-yyyy HH:mm:ss".
- Faculty Recommendation Upload:** A file upload button.
- Total Fine Payable:** A text input field.
- Book Issue QR Code:** A text input field.
- Member Digital Signature:** A signature pad with a "Draw your signature" prompt and a "[Clear]" button.

At the bottom of the form are "Submit" and "Reset" buttons. The Windows taskbar at the bottom shows the date as 06-10-2026 and time as 07:29 PM.

Figure 31: Book Issue Request form - Fine, recommendation and signature fields

The screenshot shows the same web browser window with the URL `creatorapp.zoho.in/prasanna.k.2024.cse_rajal816/library-book-issue-request-form#Form:book_catalog`. The page title is "Library Book Issue Request Form". The user is logged in as "Prasanna K". The navigation bar includes "Dashboard", "Book Issue Request", "Book Catalog" (active), and "Additional Books Requested". The form contains the following fields:

- Book Title:** A text input field.
- Author:** A text input field.
- ISBN:** A text input field.
- Shelf Location:** A text input field.
- Category:** A text input field.
- Replacement Price:** A text input field with a placeholder "#####.##" and a "\$" symbol.
- Ebook Reference URL:** A text input field with a placeholder "https://".
- Book Cover Image:** A file upload button labeled "Select File" with an upload icon.

The Windows taskbar at the bottom shows the date as 06-10-2026 and time as 07:29 PM.

Result

The Library Management System was successfully enhanced with advanced fields. Catalog references, multi-book requests, fine and delivery preferences, media details, declarations, and system-generated values were configured and verified in Zoho Creator.
